**NEW PROPOSAL JUSTIFICATION:**  
This request is to contract with Housing Forward to provide supportive services within our medical respite program. Homeless patients at Cook County Health and in Suburban Cook County are in need of recuperative care upon discharge from acute care settings. The Respite Center provides a safe and secure temporary housing location for persons who do not need hospital or nursing home level of care but cannot adequately recover within a congregate shelter setting. Cook County Health was recently awarded American Rescue Plan Act funding to allow medical respite services to continue for the next three years. With this agreement, Housing Forward would continue to provide case management services for these patients experiencing homelessness and needing recuperative care by providing linkage to additional services, conducting intakes and discharge plans, providing life skills support, and by assisting Respite Center clients in attaining long-term housing post-discharge. Moving forward expeditiously with funding this work allows the staff already providing these supports to one of the most vulnerable populations without disruption of care for our patients.

This request is sole source because Housing Forward is the only service provider for housing that serve the western Suburbs of Cook County.
